Software Agreement Terms & Conditions

You are being provided with a copy of a software program (the "Software") which has been licensed by _____
_____ ("School"). Your use of the Software is governed by the following:

1. Copyright. The Software is owned by Microsoft Corporation, Claris, and other companies as indicated, or its suppliers and is protected by United States copyright laws and international treaty provisions. Therefore, you must treat the Software like any other copyrighted material (e.g., book or musical recording), except that you may either (a) make one copy of the Software solely for backup or archival purposes, (b) transfer the Software to a single hard disk, provided you keep the original solely for backup or archival purposes. Any other reproduction of the Software is strictly prohibited. You may not copy any written materials unless School has also acquired a license for the reproduction of the written materials.

2. Other Restrictions. You must not lease, loan or transfer the Software in any way. You may only use the Software personally on computers owned, leased or used by School. You may not modify, reverse engineer, decompile, or disassemble the Software.

3. School Policy It is the policy of School to recognize and adhere to the user restrictions described above. It is also important for all employees with access to the Software to understand that unauthorized copying exposes the individual and School to civil and in some cases criminal penalties. School has no objection to acquiring Software you need for your work through proper channels; you should not engage in unauthorized copying under any circumstances. Anyone found violating this policy may be subject to disciplinary action, and fines of \$10,000.00 or more, and required to indemnify School and the San Joaquin County Office of Education from any loss either may incur as a result of such unauthorized copying.

If you have questions regarding this policy, please contact the Director of Information Technologies, at the San Joaquin County Office of Education, 209-468-4869.
